**W**ith pride and purpose, we present to you the LIMA'25 Special Edition, a unique and comprehensive companion. It is designed to not only celebrate Malaysia's commitment to maritime excellence, innovation, and international cooperation but also to provide you with a wealth of information and insights.

This edition features highlights from LIMA's legacy since 1991, a special showcase of participating ships, and insights into the Royal Malaysian Navy's collaborative efforts with friendly navies—showcasing the power of unity in ensuring maritime security and regional stability.

In addition, it provides key information on the LIMA'25 programme, a detailed map of Langkawi, and important

contacts—making it both a practical guide and a meaningful souvenir of your time at LIMA'25.

We extend our deepest appreciation to all RMN personnel, international partners, and maritime agencies. Your unwavering dedication and hard work are the backbone of our shared success at sea. We are truly grateful for your contributions.

May this edition serve as a snapshot of progress, a symbol of unity, and a keepsake of an unforgettable gathering. 🚢

**Happy reading, and welcome onboard!**

*Capt Anan*

# WELCOME TO LIMA`25

Selamat Datang and a warm welcome to the enchanting island of Langkawi, Malaysia, for the Langkawi International Maritime and Aerospace Exhibition 2025 (LIMA`25).

With great pride and honour, we extend our heartfelt greetings to all esteemed guests, distinguished leaders, and participants of this premier event. Set against the breathtaking backdrop of Langkawi's natural beauty, LIMA`25 reflects Malaysia's steadfast commitment to advancing excellence, innovation, and international collaboration within the maritime and aerospace spheres.

LIMA`25 serves as a vital platform for showcasing state-of-the-art technologies, exchanging forward-thinking ideas, and strengthening partnerships that are essential for regional and global progress. As we confront emerging maritime challenges and seize new opportunities, let us reaffirm our shared dedication to safeguarding maritime security, promoting regional stability, and championing sustainable development.

The Royal Malaysian Navy remains deeply committed to the core values of readiness, resilience, and innovation—increasingly indispensable principles in today's dynamic maritime environment. LIMA`25 is a celebration of past and present achievements and a call to chart a bold course toward a secure and prosperous maritime future.

Let this occasion inspire deeper cooperation and build enduring bridges of trust and mutual respect. As Malaysia takes on a leading role in ASEAN maritime initiatives this year, we proudly stand ready to support meaningful dialogue and collective action for the benefit of all nations present.

**May your experience here be as enriching as it is inspiring  
a true celebration of maritime and aerospace excellence.**

# LIMA SEA EXERCISE

**T**he Langkawi International Maritime and Aerospace Exhibition (LIMA) Sea Exercise (LSX), first introduced during the 13th edition of LIMA, has become a key event in strengthening ties and cooperation among local, regional, and international naval forces. This exercise plays a crucial role in enhancing interoperability and joint operations between participating nations. While its execution may seem straightforward, it is structured with professionalism and readiness, meeting the demands of modern maritime operations. LSX is a valuable platform for exchanging experiences and best practices, reinforcing collective capabilities in addressing maritime security challenges.

One of the standout features of LSX is the sail pass, an event that honours the foreign and local vessels participating in the exercise. This symbolic gesture reflects

mutual respect and strengthens the bonds of collaboration among the participating nations. LSX, therefore, is not only a military exercise but also a diplomatic avenue that fosters closer international and local relations. The countries' ability to operate cohesively during the exercise demonstrates the importance of such collaboration, which is essential for preparedness in real-world maritime scenarios.

LIMA'25 promises to mark another milestone for LSX, with naval ships from local, regional, and international forces participating. Their collective involvement underscores the relevance and importance of naval diplomacy in maintaining regional stability. Their shared commitment to cooperation, unity, and mutual respect ensures the continuity of global maritime security. As LSX evolves, it continues to serve as a strategic platform, underscoring the significance of diplomatic relations in today's complex maritime landscape.

Your Thinking Company.

## FROM VISION TO VANGUARD: THE EVOLUTION OF LIMA

**S**tep into the future of defence, aerospace, and maritime innovation at LIMA'25—the 17th edition of the Langkawi International Maritime and Aerospace Exhibition. Exhibition will be as an ambitious national vision has evolved into one of the most esteemed showcases in the Asia-Pacific region.

LIMA, launched in 1991, was the brainchild of Tun Dr Mahathir bin Mohamad, Malaysia's Fourth Prime Minister. His ambition was clear: to position Malaysia as a regional leader in defence, attract foreign investment, and build a thriving aerospace and maritime industry. That same year, he introduced Malaysia's first Aerospace Industry Development Framework, laying the foundation for future growth in high-tech aviation and defence sectors. This historical significance of LIMA's inception connects us to its evolution. The inaugural event featured just 100 participating companies, but the seeds of potential were already sown. Inspired by the EAA AirVenture Oshkosh in the United States—the world's largest gathering of aviation enthusiasts—LIMA began as a platform to test light aircraft and reduce congestion in commercial airspace. Over time, it evolved into a world-class exhibition of cutting-edge technologies, strategic cooperation, and defence innovation.

LIMA has reached significant milestones over the years. Its 11th edition in 2011 was recognised in the Malaysia Book of Records as the country's largest aerospace and maritime exhibition, featuring 403 companies from 35 countries and drawing over 160,000 visitors. More recently, LIMA 2023 broke records again with 525 exhibitors, 119 aircraft, 38 naval vessels, and five elite aerobatic teams.

Now, as we look to LIMA'25, expectations are higher than ever. Under the theme “Innovate Today, Thrive Tomorrow”, the exhibition reflects the urgent need for continuous innovation to remain competitive and resilient in an evolving defence environment. Organised by the Ministry of Defence (MINDEF) and co-organised by Global Exhibitions and Conferences Sdn Bhd (GEC), this edition strengthens government and industry partnerships. LIMA has evolved into a global platform that attracts hundreds of industry leaders and tens of thousands of visitors from around the world, and LIMA'25—taking place from 20 to 24 May 2025—promises to be bigger, bolder, and more memorable, with exciting new features and immersive experiences. The exhibition will be anchored by two main segments:

**Aerospace segment at the Mahsuri International Exhibition Centre (MIEC)**

**Maritime segment at Resorts World Langkawi, Porto Malai**

Yet LIMA is more than just an event—it is a strategic platform for forging partnerships, attracting investments, and supporting Malaysia’s long-term development goals. Through key frameworks like the Malaysian Aerospace Industry Blueprint (MAIB) and the Malaysian Shipping Industry Master Plan, LIMA plays a critical role in shaping Malaysia’s future as a regional hub for defence and innovation. Whether you’re an industry leader, policymaker, or enthusiast, LIMA'25 offers a front-row seat to the technologies and ideas shaping the skies and seas of tomorrow.

# SYNERGISING GOOD GOVERNANCE THROUGH EFFECTIVE POLICY FOR MARITIME PROSPERITY

Since its inception in 2019, the Malaysia Maritime Conference (MMC) has grown into a flagship event, reflecting the nation's aspirations to emerge as a global maritime power. Originally launched as the National Maritime Conference, the MMC has transformed significantly—both in scope and ambition. Now an internationally attended event, it serves as a vital platform to align national maritime priorities with global best practices while celebrating Malaysia's rich maritime heritage. Over the years, MMC has evolved into a strategic forum where maritime agencies, industry leaders, policymakers, and international stakeholders converge to tackle pressing maritime challenges. From security and sustainability to governance and growth, the conference fosters open dialogue and innovation-driven discussions to strengthen Malaysia's maritime ecosystem. The MMC has helped shape national maritime governance by encouraging inter-agency coordination, strategic policymaking, and long-term planning. These efforts have fortified Malaysia's maritime posture, addressing traditional security concerns and economic and environmental dimensions of maritime policy.

The theme for MMC 2025—"Malaysia: A Maritime Nation – Synergising Good Governance Through Effective Policy for Maritime Prosperity"—captures the essence of Malaysia's strategic vision. This year's conference focuses on building robust, forward-looking governance frameworks essential for securing a sustainable and prosperous maritime future. The 2025 edition highlights two pivotal sessions:

**Harnessing the Blue Economy** - will explore innovative strategies for sustainable resource management and economic collaboration. With global sustainability goals in focus, experts will discuss how to unlock the full potential of Malaysia's maritime resources while protecting marine ecosystems.

**Charting Maritime Policy** - brings together regional and international thought leaders to examine the complexities of maritime policymaking. From success stories to hard-learned lessons, speakers will share actionable insights to help refine Malaysia's maritime policies and governance approaches.

MMC 2025 brings together high-level government officials, industry leaders, academics, and international delegates. More than just a conference, it is a strategic milestone—an opportunity to form new partnerships, share expert knowledge, and drive collective action. With strong leadership, shared vision, and effective policy, Malaysia is well-positioned to thrive in the increasingly complex maritime landscape. MMC 2025 will chart the course for national prosperity and resilience and reaffirm Malaysia's position as a proactive, secure, and forward-looking maritime nation. 🚢

**Join us at MMC 2025, where ideas take sail, and policies shape the future.**

**MAHSURI INTERNATIONAL EXHIBITION CENTRE  
WEDNESDAY 21 MAY 2025

# LIMA'25 FLEET REVIEW PARTICIPATING SHIPS

**T**he Fleet Review at LIMA'25, one of the most significant events in the Maritime Segment, offers more than just a ceremonial display of naval and maritime assets. It plays a crucial role in highlighting the strength, readiness, and cooperation of participating local and international naval forces. This event, with its international participation, is a powerful symbol of global maritime unity and reinforces the strategic importance of collaborative efforts in maintaining regional stability. In essence, the Fleet Review at LIMA'25 is more than a ceremonial event; it is a key pillar in demonstrating the importance of naval cooperation, operational readiness, and maritime diplomacy's role in safeguarding nations' interests.
